DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

About Department

Department of Computer Science and Engineering was established in the year 1983. Currently the Department offers an under-graduate program (B. E.) in Computer Science and Engineering with an intake of 120 students and post-graduate program (M.Tech) in Computer Science and Engineering with an intake of 18, M.Sc. (Engineering by Research) and Ph.D. The department has highly qualified and well experienced faculty members. Faculty are committed to impart quality Technical Education in the field of IT and Research. The primary objectives include the development of innovative skills and enrichment of the academics through quality teaching-learning processes.

HOD Message

I congratulate the students who have been placed, have become entrepreneurs, and are waiting to go for joining higher learning institutes across the globe. The Department aims to produce quality professionals in the field of Computer Science and Engineering and strive for excellence in research and development.

Dr. Veerappa B. Pagi
Professor & Head

VISION

To be a center of excellence in IT education and research, developing competent professionals, serving the society with moral and ethical values.

MISSION

To produce graduates with strong fundamentals, technical skills, committed to life-long learning, through the comprehensive educational practices.

To create an environment for interdisciplinary research by collaborating with industries and institutes of higher learning.

To inculcate leadership qualities and entrepreneurial abilities with high moral and ethical values beneficial to the industry and society.

Induction Program

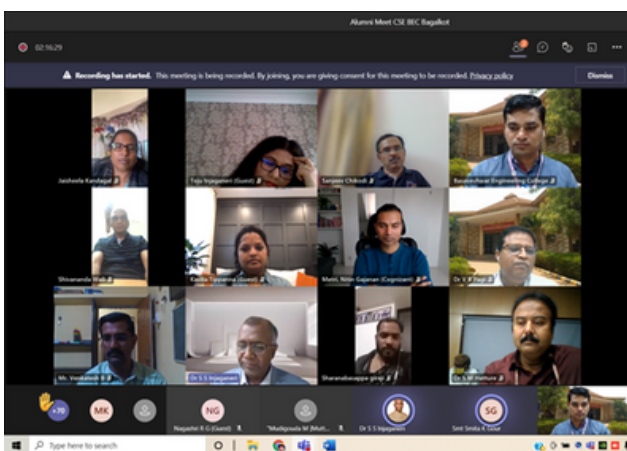

Introduction to UHV Module, Welcome and Introduction, exploring our aspirations & concerns - The session was started with exploring objectives of UHV in SIP, overview of UHV modules/session has been given.

Creative Arts-Creative arts have plenty of practical learning components where students develop problem-solving abilities, think critically, communicate with others, work in a team, and many other skills that are important in the coming future.

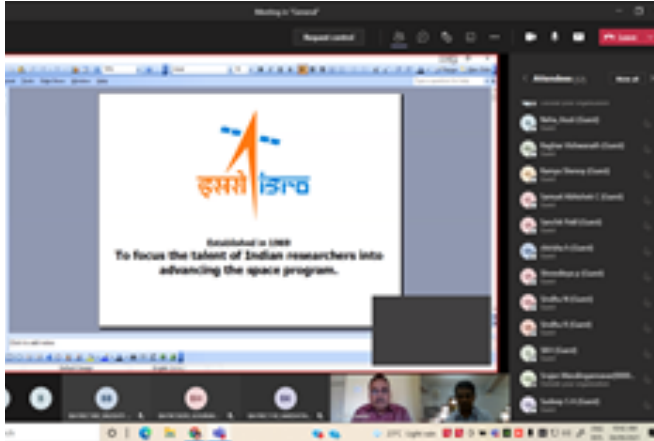

Peer Pressure and Relationship Trust - Peer Pressure: There is a pressure to be like them or better – in appearance, clothes, language and expression (e.g., English), etc. students are made understand that right understanding can help to fulfil our aspirations and resolve our concerns at the level of family, society and nature. Games-Throw ball, Volleyball, Relay, Dog and Bone

Online Alumni Meet

An online meeting of the alumni of the department of CSE, was organized with an intention of establishing a stronger connect and engagement with the alumni. 141 alumni registered for the meeting and 99 attended from different parts of the world which included USA and UK. The event began with a Welcome note by Prof. Smita K. Gour, Department Alumni Coordinator. Dr. V. B. Pagi, Head of the Department briefed about the department and Objectives of the Meet. (10th April 2021)
