A 3-week induction programme is included for the first year BE students, as per the requirement of AICTE in its UG Model Curriculum (Feb 2018).

6.1.3 Activity Points

Apart from technical knowledge and skills, to be successful professionals, students should have excellent Soft skills, Leadership qualities, Team spirit, Entrepreneurial capabilities, and societal commitment. In order to match these multifarious requirements, AICTE has introduced Activity Point Programme, through which a regular student admitted to 4 years degree programme, including lateral entry students, shall earn the activity points, as shown in Table 6.3.

- i. The activity points earned shall be reflected on the student's eighth semester grade card.
- ii. The activity points (non-credit) have no effect on SGPA/CGPA and shall not be considered for vertical progression.
- iii. In case, if students fail to earn the prescribed activity points, eighth semester grade card shall be issued only after earning the required activity points.
- iv. Students shall be permitted for the award of the degree only after the release of the eighth semester grade card.

6.3 SUBJECT CONTENT DESCRIPTION

Subject content description consists of Subject Code, Title of the Subject, Credits and Description of the Content. An example is given below:

UCS502E: Introduction to Database Systems, 4 credits, (4-0-0) Importance of the database Systems. E-R Model, Three database models, Representation and Evaluation of Relationships, Relational database Model, Functional dependencies, Multi valued and joint dependency, Normalization Theory, Concurrency Control in Relational Databases, Object Oriented Data Models.

Prerequisite: A course might have another course specified as its prerequisite. A student who has not undergone a course mentioned as prerequisite will not be eligible to study that course.

For Example: UCS047E-Introduction to Database Systems, Prerequisite: UCS412C-Database Management Systems. A student who has undergone the course UCS412C will only be eligible to register for the course UCS047E.

6.4 CREDIT SYSTEM

The credit system enables continuous evaluation of a students' performance and allows the students to progress at an optimum pace suitable to individual ability and convenience, subjected to fulfilling minimum credit requirement- for continuation of programme on semester or session basis.

6.5 CREDIT ASSIGNMENT

Every course has certain number of credits assigned based on the students' contact hours in a week. One Lecture hour per week is one credit, two hours of Tutorial/Practical per week is one credit. The following example illustrates the basis of credit assignment.

UCS352C: Computer Organization, 4 credits (3-2-0) (3 Hrs. Lectures + 2 Hrs. Tutorial+ 0 Hr. Practical) per Week.

A typical credit structure based on the above definition is given in Table 6.7.

Table 6.7: Credit Structure for Coursework

Lectures (hrs/week/Sem)	Tutorials (hrs/week/Sem)	Laboratory Work (hrs/week/Sem)	Credits (L: T: P) (hrs/week/Sem)	Credits (Total)
3	0	0	3:0:0	3
2	2	0	2:1:0	3
2	0	2	2:0:1	3
2	2	2	2:1:1	4
0	0	6	0:0:3	3

6.6 GRADING SYSTEM

The grading system is implemented on a 10 points scale with letter grades S, A, B, C, D, E and F as given in Table 6.8. The Grade awarded to the students are basically a qualitative measure (an alphabet) of the performance of a student, such as, Outstanding (S), Excellent (A), Very Good (B), Good (C) and the like. There are different approaches possible for awarding grades like absolute grading, relative grading etc., presently absolute grading is adopted in the evaluation system of BEC. This is usually arrived-at, after the assessment of student's performance in a course. The following method is used for awarding grades in a course. A letter grade, corresponding to specified number of grade points, is awarded in each course registered by a student. On obtaining a minimum pass grade, the student's performance is evaluated by the number of credits that he/she has earned and by the weighted grade point average.

Table 6.8: Range and Absolute Grading

Range of Marks (Out of 100)	Grade	Grade Points	Level
90 to 100	S	10	Outstanding
80 to 89	A	9	Excellent
70 to 79	B	8	Very Good
60 to 69	C	7	Good
50 to 59	D	6	Above Average
40 to 49	E	4	Poor
0-39	F	0	Fail

6.7 AUDIT COURSES

In addition, a student can register for courses for audit only, with a view to supplement knowledge and/or skills. Here also, the student's grades are reflected in the Grade Card. But, the grades are not taken into account in determining the student's academic performance in that semester (SGPA and CGPA). The total number of registered credits in that semester, including audit courses, must not exceed the given range of credits in the semester.

6.8 GRADE POINT AVERAGES

6.8.1 The Grade point averages SGPA and CGPA are computed using the credits index, credit points and grade points earned by the student.

6.8.2 The grade points awarded to the student is computed from Table 6.4 depending on the grade assigned to the students. The credit points earned by a student are equal to the number of credits assigned to the course multiplied by the grade points awarded to the student. The credit index of a student for a semester is the total of all the credit points earned by the student for all the courses registered in that semester.

Example: UMA261C (4-0-0) If a student earns a B Grade, the grade points earned in the course is 8 and Credit Points is $(8 \times 4 =) 32$

6.8.3 Semester Grade Points Average (SGPA) and the Cumulative Grade Point Average (CGPA), both are important performance indices of the students.

6.8.4 The SGPA reflects the credit index for a semester which is equal to the credit points earned in the semester divided by the number of credits registered by the student in that semester.

6.8.5 The CGPA reflects the performance index of a student till the previous semesters which is equal to the total of credit indices of all the previous semesters divided by the number of credits earned in all the previous semesters.

Thus,
SGPA

$$= \frac{\sum[(\text{Course Credits}) \times (\text{Grade Points})] \left(\begin{array}{c} \text{for all the Courses in that semester excluding} \\ \text{transitional grades} \end{array} \right)}{\sum[(\text{Course Credits})] \left(\begin{array}{c} \text{for all the Courses in that semester excluding} \\ \text{transitional grades} \end{array} \right)}$$

CGPA

$$= \frac{\sum[(\text{Course Credits}) \times (\text{Grade Points})] \left(\begin{array}{c} \text{for all the Courses excluding those with F and} \\ \text{transitional grades until that semester} \end{array} \right)}{\sum[(\text{Course Credits})] \left(\begin{array}{c} \text{for all the Courses excluding those with F and} \\ \text{transitional grades until that semester} \end{array} \right)}$$

Sample of calculation of SGPA and CGPA are given in Tables 6.9 and 6.10.

Credit index secured in this semester (total of column 6) = 128

Sum of credit index of all previous semesters = **106.5 + 128** = **234.5**

Total credits earned = **13 + 17 = 30**

$$\text{SGPA} = \frac{128}{17} = 7.53$$

$$\text{CGPA} = \frac{234.5}{30} = 7.82$$

6.8.6 A student will be considered to have completed a course successfully and earned the credits if he/she secures a letter grade other than I, W, X, or F in that course. Letter grade F in any course implies failure in that course.

- 6.8.7 The transitional Grades I, W and X, would be awarded in the following cases:
- a. Grade I: It is awarded to a student having satisfactory attendance at classes and meeting the passing standard at CIE, but remained absent from SEE for a valid and convincing reasons acceptable to the college, like:
Illness or accident, which disabled him/her from attending SEE
A calamity in the family at the time of SEE, which required the student to be away from the college; any other verifiable exigency
 - b. Grade W: It is awarded to a student having satisfactory attendance at classes but withdrawing from that course before the prescribed date in a semester under faculty advice. Further, a student can withdraw from a course once and only once, maintaining minimum credits requirements.
 - c. Grade X: It is awarded to a student with high CIE rating ($\geq 70\%$) in a course, but SEE performance is observed to be poor, which results in overall F Grade in course.
 - d. However, there is no scope for awarding transitional grades in the supplementary semester.
 - e. The student may be allowed to cancel his registration in case of calamities in Supplementary Semester.
 - f. The transitional grades are to be converted into one or the other of the valid letter grades (S to F) after a student completes all the academic requirements of the course.
- 6.8.8 The Grade Card (or transcript) of a student at the end of the semester will have a list of all the courses taken by a student, however, only those grades (S to F) are included in the computation of the student performance. Thus, the courses taken for audit will not form part of the computation. The results of the mandatory courses, which are of non-credit type, will also be reflected in the Grade Card as PP (for passed) or NP (not passed). It is necessary for each student to obtain the Grade PP in every mandatory course to qualify for the award of the degree by the university.
- 6.8.9 The Makeup examination facility will be available to students who have not attended SEE of one or more courses in a semester for valid reasons and have been awarded I Grade or X grade. The makeup examination will be held as per dates notified in the Academic calendar. However, it would be possible to hold make up examination at any other time in the semester.
- 6.8.10 If a student fails in his/her final semester, a laboratory course and/or in CIE of a course, the student shall be given Z grade, for such course(s). In such a case, the concerned course teacher shall have the possibility to grant the student extra time not exceeding 12 weeks for completing the course, with approval from the HoD and Principal. If no extra time is sought/granted, the concerned student shall have to re-register for the course(s) in a succeeding semester and take measures to fulfill the requirements for the award of the degree.
- 6.8.11 The I and X grades awarded to a student should be converted into an appropriate letter grades in the subsequent make up examination. Otherwise, the grade will be automatically converted into F grade.
- 6.8.12 The W grade awarded to a student would be eligible for conversion to the

appropriate letter grade only if the concerned student re-registers for these courses in a main/supplementary semester and fulfills the passing standards for the CIE and SEE.

6.9 RESEARCH PROGRAMMES

For M. Sc. (Engineering by Research) and Ph.D. programmes, the VTU Belagavi regulations are to be followed for the course work.

7. REGISTRATION PROCESS

7.1 REGISTRATION

Registration is a very important procedural part of the academic system. Every student after consulting his/her faculty advisor in his/her department has to register for respective courses approved by the BoS of the department. This ensures that a student's name is on the roll for each course he/she wants to study during that academic year.

Each student has to register for the course work at the beginning of the semester. Course load has to be maintained as given in the Section 5 (Academic Calendar).

No credit is given if a student attends the course for which he/she has not registered. Registration for the courses in a particular semester will be done in accordance with a specified schedule. The student must ensure that his/her dues are paid before the commencement of each semester/session.

Registration in absentia and registration after the specified date is not permitted. However, in exceptional cases, this may be permitted at the discretion of Principal. In case of illness or absence during registration due to valid reasons, a student must intimate the same to concerned faculty advisor and the HoD. For reasons beyond his/her control, if a student is not able to register or inform the same, he/she may submit an application to the Principal for late registration. The Principal may consider the late registration in genuine cases with penalty.

However, late registration is not permitted beyond one week after the starting of the semester.

Each student will be provided with a registration card, which will be an official record of courses registered. Adding, dropping, withdrawal and auditing will be marked on this card itself. The data contained in this card will be used for resolution of discrepancies, if any, later.

The duly filled registration card is to be submitted to the concerned department on or before the specified date, failing to do so the registration is liable to be cancelled.

7.2 COUNSELING

A student must consult his/her faculty advisor at the time of registration process, to finalize the courses for a given programme, keeping in view minimum/maximum number of total credits, past performance, backlog courses, SGPA/CGPA, prerequisites, workload and student's interest. Special provisions are made available for academically weak students.

7.3 LOWER AND UPPER LIMITS FOR CREDITS REGISTERED

A student must register for the appropriate number of credits, as mentioned in Table 5.1.

7.4 MINIMUM STUDENT REGISTRATION IN A COURSE

A course will be offered, only if a minimum of 10 students register for the course. Under special circumstances with the prior permission of the Principal and approval of the Head of the Department course may be offered with lesser number of registrations.

7.5 CREDIT MONITORING

The student must keep track of the number of credits earned and plan for completion of the prescribed number of credits for the programme. It is the responsibility of the student to inform the concerned faculty advisor and HoD in case of any discrepancies with regards to the credits earned and must get the necessary corrections done

7.6 DROPPING, WITHDRAWAL FROM COURSES

7.6.1 Dropping of courses

A student can drop a course, without being cited in the grade card, on or before the specified date mentioned in the calendar of events based on the review of the student's performance in CIE by the faculty advisor. However, the criterion of minimum number of credits specified for the semester is compiled with and such courses are to be completed by re-registering at a later time. The student is not permitted to drop re-registered course(s).

7.6.2 Withdrawal from courses

A student can withdraw a course, at the end of a semester based on the review of the students' performance in CIE by the faculty advisors and maintaining minimum credits specified for the semester, however the same will be depicted in grade card (Grade W). A Student is not permitted to withdraw re-registered courses(s). Such course(s) are to be taken up for study and re-registered at a later time.

A student has the option to add or drop courses for which he/she has registered. Within one week of commencement of the semester.

7.7 PERFORMANCE CANCELLATION AND RE-REGISTRATION

A student is permitted to reject/cancel his/her performance in a course(s) after the declaration of result (provided he/she has secured a minimum of E-grade) for improving CGPA/ for eligibility / enhancing CGPA, within one academic year from the date of declaration of result. If a candidate wishes to reject his/her performance in a course, he/she shall be allowed to do so, under the following circumstances:

- a. Only performances with A, B, C, D or E grades are eligible for rejection.
- b. Rejection is to be made within maximum of one year duration from the date of announcement of results.
- c. Student seeking cancellation must surrender his/her original grade card along with request for performance rejection, duly recommended by the faculty advisor and forwarded by the concerned HoD.

The candidates seeking admission shall have to apply for establishment of equivalence with prescribed fees notified by the college.

8. ASSESSMENT AND EXAMINATIONS

The assessment of performance in a course is based on examination that a student appears. In general, examination may have different objectives, like achievement-testing, prediction-testing, endurance-testing, and creativity-testing and testing for ranking. In technical education, the assessment has to be preferably of achievement-testing type, so that a student's knowledge, understanding and competence in the course studied is properly assessed and certified.

Typically, achievement-testing is done in two parts, namely Continuous Internal Evaluation (CIE) and Semester End Evaluation (SEE). Both of them are important in assessing the achievement of a student.

Each course is assessed for 100 marks with equal weightage for CIE and SEE, i.e., 50 for CIE and 50 for SEE. The standards of passing CIE and SEE for each course registered are as given in Table 8.

Table 8: Requirement for passing a course

7.25	65
7.75	70
8.25	75

The following formula for conversion of CGPA to percentage of marks to be used only after a student has successfully completed the programme, as shown below:

$$\text{Percentage of marks} = (\text{CGPA} - 0.75) \times 10 = \text{PERM}$$

Class Designation:

$$\text{PERM} \geq 70\% \text{ (First class with Distinction)}$$
