Life @ Humanities and Social Sciences

Online quizzes are conducted in classroom immediately after the completion of each topic. Multiple choice questions are framed covering entire topic. Frequent testing doesn't just measure learning, it actually promotes it. Students are better at recalling, retrieving, and applying new information after taking a test on it.

Seminar by the students: This is the one of the best practices we follow at first semester level only. Students have to prepare document of the assigned topic and also presenting PPT in the classroom using the digital board. This convention helps them to develop stage courage at very early stage, using of modern tools and technics and develop their communication skill.
