ABOUT NKCON-2024

NKCON 2024 is the flagship conference organized by the IEEE North Karnataka Subsection (NKSS), designed to promote networking, excellence, collaboration, and cooperation among technologists. Scheduled to take place at Basaveshwara Engineering College in Bagalkot from **21-22 September 2024**, the conference will feature a range of activities including contributed papers on cutting-edge research, expert talks on contemporary topics, and various professional events. NKCON 2024 offers a distinctive platform for participants to share groundbreaking research, present innovative ideas, and explore practical applications across the diverse domains covered by the IEEE. The conference stands as a testament to the dynamic and collaborative spirit of the IEEE community, fostering the exchange of knowledge and advancements in numerous technological and scientific fields.

ABOUT THE INSTITUTE

Basaveshwar Engineering College (BEC), Bagalkot, established in 1963, has evolved from a private institution offering just three engineering programs—Civil, Mechanical, and Electrical—into a prestigious college with 9 undergraduate and 8 postgraduate programs. Initially receiving government grant-in-aid in 1968, BEC has grown significantly, now encompassing 10 departments recognized as research and development centers by Visvesvaraya Technological University (VTU), Belagavi. The college achieved a notable rank in the 201-250 band nationally in the 2019-20 National Institutional Ranking Framework (NIRF) and boasts accreditations from the National Board of Accreditation (NBA). Its development can be segmented into three phases: Phase I focused on infrastructure consolidation, Phase II on expanding programs and faculty, and Phase III on modernization and excellence, marked by its participation in the Technical Education Quality Improvement Program (TEQIP), which included substantial grants for program enhancement and research. BEC has also received several accolades, including the AICTE IDEA Lab establishment, recognition as an Incubation Centre, and high rankings in industry-linked surveys. The college's core values emphasize high-quality teaching, research, and administration, continually striving to enhance its educational environment through national-level audits.

ABOUT IEEE NORTH KARNATAKA SUB-SECTION
